Born to be wild

Some motorcycles get excited right when the asphalt turns into an off-road trail. Just like those enthusiasts who choose to hop on their saddles, these bikes are determined to design their own path.

Aprilia RX 125 is ready to enjoy adventures and break the mold. What's more, its attitude is deeply rooted in the Aprilia DNA, built also thanks to a worldwide success achieved performing great adventures from the desert to the motocross tracks. Don't be afraid of dust: the RX 125 will take you everywhere.

Off-road nature

The real fun on the RX 125 begins right when the road ends. The 21" front wheel together with knobby tyres are just a pair of reasons capable to convince off-road enthusiasts that this bike is ready to tackle even the most demanding challenge. No matter what terrain you are riding on: precision and absolute control reflect its sports and unconventional nature. A special mention deserves the engine, which has been redesigned to be even more performing. The result? At the end of the day you will be fully rewarded with a huge dose of fun and dirt.

SX125

Citizen Adventure

The engine features all of Aprilia's know-how and is combined with an unrivalled chassis that has made history. All this means outstanding performance and great fun while integrating safety features. So, Aprilia SX 125 results perfect in everyday use without however sacrificing its sporty attitude. Part of its ideal world is represented by the curves, to be eaten up one after the other. You can also count on its legendary frame features and be thrilled by its single-cylinder superior performance. In other words, SX 125 stands out. Feeling at home through urban traffic and looking for the right dose of adrenaline, a steed that clearly represents the ultimate 125 cc fun bike.
